As per my visit (As MOIC Sadar Block PHC Jamhor Aurangabad) :-

- 1- There is a proper sewage and drainage system in the campus of DAV Public School Dani bigha AURANGABAD, Bihar.
- 2- The School Campus through out inside and outside is neat and clean and healthy atmosphere all around it.
- 3- There are separate urinal and lavatories for boys and girls in each floor and these are neat and clean.
- 4- There are eight dustbins on each floor available.
- 5- There are proper arrangement of drinking water available on each floor through the taps.
- 6- There is R.O Plant with cooling system is at the top school building by which twelve taps are connected on each floor to supply the drinking water.
- 7- There are fire extinguishers have been placed at different places to protect from fire and other natural calamities.
